## About me & PolyPediaOnline

Hello! :)

My name is Iris Mishly and I am a polymer clay artist from Israel. Coincidence led me to discover polymer clay in November 2004, I took one class, and knew it was different than anything I'd ever done before. Fascinated with the magical world of color and form, transparency and opaque, I was instantly hooked.

My main mission is to offer you - artists and hobbyists from all over the world to learn from my experience without getting up of your chair: Tutorials, Free Articles and Videos are offered to you - where ever you are across the globe.

As polymer clay is constantly evolving, I am continuously working and thinking of new ideas of using this material to share with you in my tutorials. If you want to learn new techniques in polymer clay, find out the most important time saving tips, maybe you want to become an expert, and turn your hobby to your livelihood - You are welcome to learn more from the 37 most innovative, informative, up-to-date, advanced and high-quality tutorials offered online.

In this catalog you will find the most updated information on my 37 Pdf and video tutorials, many of them include several projects in a single tutorial, making PolyPediaOnline the most detailed and comprehensive polymer clay teaching resource online.

Under each tutorial you will find an active link to direct you to PolyPediaOnline website for more details and pricing. Some tutorials have special deals or bundles so check them out.

I am certain that you will find a new and exciting technique you wish to learn and give yourself a special gift that will upgrade your polymer clay skills.

As always, I will be happy to answer any question or query regarding my master classes, and if you have a special request, please email me to [imishly@gmail.com](mailto:imishly@gmail.com) and I may consider creating a special tutorial just for you! :)

thank you for your time!  
Iris.

## Millefiori "Backgroundless" Flower Canes

In this one-of-a-kind tutorial you will learn how to create six colorful polymer clay backgroundless Millefiori petals and flower canes.

My 1st and most popular Backgroundless millefiori canes tutorial demonstrates how to create 6 different backgroundless millefiori petals canes & variations, with clear and detailed instructions, 26 pages and about 70 full-color pictures to guide you through. These petals can be used as leaves, as flowers or applied in another millefiori project.

### Why do we need backgroundless canes?

These canes are easier to apply and use, we do not have to worry about the "translucent halo" background, and they are beautifully shaped!

**Included!** useful tips for handling backgroundless flower canes!

### Table of content covered:

- Tools & materials
- Squashed Petal (Half Press)
- Squashed Petal (Full Press)
- 2 skinner blend petal
- 3 color Skinner blend petal and middle
- "Flame" petal with stripes & inserts
- Upside "flame" petal
- Accordion fold petal and inserts

Pre-requisites: Previous experience with skinner blends & polymer clay is helpful  
\* if you are interested in advanced flower techniques demonstrated with videos, please refer to Vol. 26, 27, 34, 35, 36 & 37.

### Customers say...

I bought the borderless flower cane and animal skin tutorials and they are wonderful!!! I can't wait to try them. They are so well written and very easy to follow even for a novice like me!!  
Thank you so much!!

## Millefiori Center Flower Canes

Vol. 2 offers 10 great ideas to create wonderful polymer clay center canes for your millefiori flower canes.

Ended up with a wonderful petal but you can't seem to find an idea for a flower center? Looking for easy & simple canes to start expanding your millefiori skills with?

This tutorial demonstrates how to create 10 different flower centers canes, with clear and detailed instructions, 29 pages and about 100+ full-color pictures to guide you through.

These centers canes can be used both as individual canes and as center canes surrounded by colorful petals. Slices of these canes can be used as a part of a bigger design, as a flat pattern sheet, or in other projects.

### Table of content covered:

- Tools & materials
- Stripy Jellyroll
- Stripy Jellyroll skinner blended
- Curled Skinner Blend (rose curl)
- A grouped skinner blends
- Mosaic Center (reduced)
- Check board center
- ClayGun (extruder) Retro Center
- Jellyroll Kaleidoscope
- Striped Bullseye (skinner blended)
- Rosy center

The two red flower canes shown in the photo are a visual demo of how 2 of the centers looks like when they are joined with petals, petals tutorials are not included in this class.

### Customers say...

Received your tutorials. Am very pleased as to how prompt you were. They are great. Hope to keep in touch for more great tutorials. I am very happy with them. Easy to read and fun to do.

**NEW TUTORIAL!**

#### How to create geometric millefiori canes

9 amazing stripes, squares, rounds, dots, triangles  
and line canes tutorial  
+ a bonus of a Stripy Kaleidoscope Cane  
By Iris Mishly

*This tutorial is offered for your personal use only. Please do not distribute it.*

Following my previous tutorials, I was asked to share my knowledge and experience regarding blending cane techniques.

My tutorial demonstrates how to make 9 different geometric canes - stripes, squares, rounds, dots and many more. You can also make new canes by variations and additions to the canes offered in this tutorial.

Sizes of canes with these designs may be used as a part of a bigger design as a fun pattern sheet or in itself.

I hope you will enjoy this tutorial and find many uses for the explained designs in your creations.

If you want to share any part of these instructions with your friends, please let them know and refer them to this site or mail for more details and a coupon!

## Hollow folded stripes bracelet

**I have always wanted to create large, bold jewelry pieces with lots of presence. Something that grabs peoples' attention, leading them to inquire about both the material and design.**

**"How did you do that? Is it heavy? What is it made of?"**

Vol. 11 tutorial demonstrates both how to create a large hollow form bracelet using an armature made of aluminum foil & clay and decorated with "fabric" striped skinner-blended cane.

The bracelet folded appearance resembles a wrapped fabric.

This project is a demonstration on creating large sized jewelry or sculpturing while being light weight and innovative.

The tutorial is a combination of hollow techniques and millefiori stripes cane made in a unique way.

With 25 pages and more than 100 photos to guide you through, your success is guaranteed.

Class level - Intermediate.

Pre-requisites: previous experience with polymer clay and skinner blends is helpful.

**Great Value!**  
Available in the  
2 for 30\$  
or 4 for 55\$  
deal!

### Customers say...

**Highly recommended! The tutorial arrived within a very few hours- I also recommend anybody interested in polymer clay to have a look at Iris's website, where you will find an awesome amount of information available on the subject !!**

## Fun Millefiori Bugs Tutorial

Class Level

Easy & simple -  
Any one can do it!

Although none of us like them on our floor, these polymer clay colorful bugs are charming and so cute!

They are a sure hit on any jacket, shirt or bag and will give an extra chic of color as a magnet or a bead too!

Be prepared! people may want to hold and touch these little bugs of yours!

The colorful bugs are fun to make as they are pretty - choose your clay, colors, canes, patterns, stamps, texture, shape, cutters, beads and the game begins!

For this tutorial you will need pre-made millefiori canes.

19 pages PDF file and more than 80 photos.

Great Value!  
Available in the  
2 for 30\$  
or 4 for 55\$  
deal!

### Customers say...

Great tutorials. Detailed photos, nice advice. Got the tutorials very fast after purchase, and Iris provides after sales support, which i value a lot! I am very happy with this purchase!!

# Geometric “Mosquito” Necklace Tutorial

The “Mosquito” technique was invented back in 2008 when I was looking for an idea to create strong, flexible and light weight beads.

Vol. 15 necklace design is a variation of my “PolymerCAFE” 2009 publication which demonstrated a unique design for creating strong curly beads that are flexible and bendable (see vol. 28)

In this current design, I used the same technique, only the beads are flat and “the windows” were left “open” so the mesh can be seen through.

These flat beads can be made using all kinds of clays, colors, textures, powders, paints & skinner blends. Their beauty is in their uniqueness, The mesh-polymer combination makes them look very elegant and stylish.

With 14 pages, more than 50 photos and lot's of steps to guide you through.

This tutorial is a part of the “Mosquito Pack” tutorials (Vol. 14, Vol. 15, Bracelet project from Vol. 24, Vol. 28, Vol. 29 & Vol. 30

Pre-requisites: Some previous experience with polymer clay is helpful

## Customers say...

Hi Iris, I just finished your Mosquito Necklace and it was so much fun to do. Everyone I show it to is simply awed by the mosquito screen usage. It was so easy to follow your tutorial and now I am ready to do the other necklace project. Thanks so much for sharing your talent.  
Dixie / Aug 2011

# PolyPediaOnline Vol. 15

## Mystifying Floral Brooch Tutorial

The Mystifying Floral Brooch tutorial demonstrates how to create a trendy floral design made of domed hollow beads, decorated with canes, textures, paints and crayons and placed around a round shaped mesh.

The mystifying brooch is made of 6 unique beads, combined into one single design. You can create these beads using all kinds of clays, sizes, colors, textures, powders, paints, skinner blends, they can be pierced and threaded into a necklace or used in other creations.

With an elegant combination of mesh and polymer, you will learn my special technique for making half domed beads which can be applied to many of your creations.

17 pages PDF file, more than 50 photos and lot's of steps to guide you through.

This tutorial is a part of the "Mosquito Pack" tutorials (Vol. 14, Vol. 15, Bracelet from Vol. 24, Vol. 28, Vol. 29, Vol. 30)

Pre-requisites: Some previous experience with polymer clay is helpful

### Customers say...

Iris,  
I have enjoyed your tutorial very much. I have learned alot. I highly  
I recommend your tutorias to anyone who wants to improve thier  
skills.

## The Wavy Cuff Tutorial - 3 Designs

The Wavy cuff tutorial offers 3 cuff/bracelets designs and variations on the design.

**Vol. 16 tutorial demonstrates the creation of wavy bracelets/cuffs using domed, semi-hollow forms that are placed on the piece and imitate a wavy flowing look.**

These wavy designs are using hollow forms and decorated with millefiori veneer to create an appealing design.

This tutorial is a combination of 2 techniques shown in the Hollow Folded Stripes Bracelet tutorial (Vol. 11) and the Mystifying Brooch Tutorial (Vol. 15) that were joint into one design.

You can take these techniques and apply them on many designs - beads, pendants, brooches, hair decor, etc.

With 29 pages, more than 120 photos and lot's of steps to guide you through.

Pre-requisites: Some previous experience with skinner blends is helpful

## "Paint Your Clay" Tutorial

**Vol. 17 "3-in-1" has all the information you need to design and create jewelry and image transfers using color pencils, pastels, crayons and liquid polymer clay.**

In this 43 pages tutorial you will learn how to transfer a drawing or a sketch into clay using color pencils and oil pastels; it can be an artistic sketch, the name of a friend on a brooch/barrette, a photocopy tinted with colors or your own drawing. Paint on clay and use it as your canvas!

Lot's of detailed tips for drawing, bead building, layering, cutting, attaching, curing, finishing and stringing, The class includes all the steps required to finish your products and trouble shooting on the relevant sections.

43 pages and more than 200 photos to guide you through.

The 3 projects -

### "Pencil Celebration" Bracelet tutorial

A sophisticated angular square bracelet with a different design on each side and an elegant stripes background. The bracelet has no armature and is based on 4 "tiles" holding each other on 4 sides.

### A Pastel Tile Necklace tutorial

Create tiles made of polymer clay, pastels & liquid polymer clay & a decoration of a silver leaf. It's another variation with different results.

### The "ClipArtistic" Ring tutorial

Draw directly on polymer clay using the ring's upper surface as a canvas! The watercolor shades of the painting are so light and pleasing to the eye. don't worry, you don't have to be a picasso for it ;)

Pre-requisites: Some previous experience with polymer clay is helpful

### Customers say...

A great tut, lots of possibilities for your own creativeness,  
instructions well-written!

## Disc-Chic Jewelry Tutorial & Videos

Class Level

Easy & simple -  
Any one can do it!

My Disc-Chic jewelry were featured in many sites, magazines and books.  
Their refreshing concept, luxurious style & fancy look is what made them so appealing and very popular.

The PolyPediaOnline Disc-Chic Kit is your guide for making disc-shaped beads & donut beads using elegant findings.

These colorful Disc-Chic flat beads can be made using all kinds of clays, colors, textures, powders, paints, skinner blends and techniques you can think of, Their beauty is in their uniqueness, the combination of metal findings & polymer clay looks very elegant and stylish.

In this **comprehensive 48 pages, 200+ photos tutorial** we will discuss the technique of applying polymer clay to Disc findings, how to insert the clay inside the "bezel", how to cover both sides of the metal (to avoid skin irritation), how to pierce holes, and the different options for decoration.

I will walk you through several ways of stringing donut beads using 2 types of threads (cotton/wax threads). You will learn quick and easy ways to string Disc-Chic beads in particular and donut beads in general, we will cover my popular "Back-looping knot" and "the X" stringing. We will also cover a basic technique to string donut beads.

Last, we will move to the next level of creating flat beads with clay backing decorated with a beautiful layered carving technique that can upgrade your design.

**INCLUDED - KIT of 20 Disc-Chic findings for your own creations SENT TO YOUR HOME!**  
**and CD with all the videos** showing the process of creating and stringing Disc-Chic jewelry.

Included - IDEA Bank! 9 extra designs & photos - Necklaces, brooches, magnets, rings, bracelets, pins and a short description on how they were created.

**It took me almost 2 years to build a winning jewel piece - You can make one within 2 hours tops!!**

### Customers say...

This tutorials are amazing. I have learn a lot from them and can't stop having great ideas each time there is a new tutorial. Thanks teacher!!!

## "Carving 101"

The "Carving 101" tutorial focuses on creating your own handmade stamps using scrap clay, carving tools and paints.

This tutorial demonstrates a fun and easy method for creating your own stamps (negative image) using scrap clay, carving tools, acrylic paints and sanding paper.

In this project I chose a magnet but the technique can be adapted to any kind of design you like - smaller or larger, jewel or accessory. You can create endless designs and endless stamps with your own words, drawings etc.

Clear and detailed instructions, 17 pages and over 40 photos to guide you through.

Class level - All levels

### Table of content covered:

- Introduction
- Tools and materials
- How to make your stamp
- How to create your final stamped piece
- Photos of carving ideas

Pre-requisites: Some previous experience with polymer clay is helpful

### Customers say...

My wife and I wanted something fun for my mom who moved in with us. We came across PolyPedia. Bought 6 guides, now all three of us do polymer clay! Thank you Iris!

## Create beautiful puffy beads using scrap clay, handmade molds and cookie cutters

### Class Level

Intermediate,  
Previous experience  
with polymer clay  
is helpful.

The "Puffy Beads" tutorial demonstrates an easy technique for creating perfect "puffy beads" out of your own handmade molds by using scrap clay and cookie cutters. The technique is different than creating a "regular" pillow bead.

In this class I have chosen hearts and star beads, but you can create any design you have in mind.

These beads can be used as charms or pendants, necklaces & earrings.

You will also learn how to create molds from found objects by embedding them in scrap clay and duplicating identical beads over and over again.

Clear and detailed instructions, 22 pages and over 60 photos to guide you through.

Class level - All levels

## "The Brocade Collection" Tutorial & Videos

Get the most comprehensive tutorial for wearable purses & pouches - 4 projects, 43 pages PDF file, over 160 photos and 8 videos;

Learn how to create one-of-a-kind, original and creative mix media products that upgrade your polymer clay skills in 24 hours!

The Brocade collection is an innovative product tutorial which was created from a fashion design inspiration & perspective. Mixing materials, combining techniques, seeking for intriguing shapes and patterns was the main goal of this class. The simplicity and practical uses of this design can show you how you can develop it further with any design, pattern, color or texture you wish. The "Brocade Collection" purses were featured on the cover of winter 2011 "The Polymer Arts" Magazine.

In this tutorial you will learn how to create an unusual mix media product that can be transformed into endless shapes & designs with more than 160 photos and 8 comprehensive videos .

We will use simple tools and materials to create a unique design;  
Learn a clever-easy technique to imitate a rich brocade fabric look using materials almost every woman owns;  
Create functional and original designs for zippered cases, pouches and purses in several techniques. Combine between soft materials (fabric, zipper) and stiff materials (polymer clay) to create a perfect match.  
Incorporate the elegant brocade technique into your jewelry - a beautiful bracelet!

**KIT - Get the tools and materials to start creating immediately, along with 2 CD's and a kit sent directly to your home in a gift box!**  
**Get a 5 cm (2 inch) oven proof hemisphere metal form, a fabric sheet and a zipper sent to your home to create your own hemisphere pouch/purse.** The metal form is ideal for this project and for other uses as well.

### Customers say...

I have been making polymer clay jewelry since Oct. of 2010. I started from no knowledge until I found Iris's tuts. Since then my skills have increased and I have enjoyed every single tut that I have purchased from her. I highly recommend ALL of these for all level of clayers!!!

## "The Mosquito Pack" - Mesh Necklace

Ever wondered If it's possible to create thin polymer clay beads and forms that are strong, durable, flexible and light weight?

The ~Mosquito Jewelry~ set of tutorials (Vol. 14, 15, 24, 28, 29, 30) will teach you all the secrets to create strong and durable designs and beads using a mosquito mesh.

Vol. 28 offers the original mosquito necklace technique published in 2008 PolymerCAFE Magazine.

**In the "Mosquito Pack" Tutorials you will learn how to -**

Use traditional & affordable materials to build sophisticated un-traditional designs  
Build a solid foundation to a thin piece and create a durable and strong form that will survive occasional falls or mild bending.

We will cover additional sub-techniques to create the shown designs - layering and free-form sculpturing.

Recycle found objects into mix media designs - Use any metal mesh you have!

**Upgrade your art with a metal mesh to create a perfect design of polymer clay and metal.**

12 Pages PDF file with more than 40 photos to guide you through.

### Customers say...

it's finally time to thank Iris for her wonderful and very creative tutorials. i have quite a few now and it so much fun to learn from them!!! you are a very gracious person and i feel like i'm beginning to know you. thanks for your your generosity!!

suzanne baer, Switzerland / July 2011

## "The Mosquito Pack" - Mesh Flowers

Ever wondered If it's possible to create thin polymer clay beads and forms that are strong, durable, flexible and light weight?

The ~Mosquito Jewelry~ set of tutorials (Vol. 14, 15, 24, 28, 29, 30) will teach you all the secrets to create strong and durable designs and beads using a mosquito mesh.

This tutorial demonstrates how to create beautiful, easy and strong sculpted flowers, which can be duplicated and transformed into endless designs, shapes and colors and used as a decoration in a vessel placed on your table or a sculpted pin on your bag or jacket.

The 2 main benefits of designing flowers with a mesh embedded inside are first, giving extra strength to the piece and second - giving it extra volume. The mesh "holds" the piece firmer compared to a single or two layered sheet flower.

**Upgrade your art with a metal mesh to create a perfect design of polymer clay and metal.**

17 Pages PDF file with more than 40 photos to guide you through.

**A 17 minutes video is included in this tutorial.**

### Customers say...

I'm a retired professional and now a novice Polymer Clay hobbyist but I judge my purchased tutorials as if I were still working and Iris Mishly receives an A+++ from me. All tutorials are well presented from subject detail, user guidance and inspired creativity. The package didn't take long to arrive from Israel and she took the time to include a nice note to me personally. What a wonderful time I'm going to have working from her teaching into my own particular ideas she inspires. Thank you Iris and best wishes for your business. Leigh Anne / Houston, Tx. USA / Aug 2011

## "Enchanted Garden" - Millefiori Leaves, Petals and Flower Canes Tutorial

The Enchanted Garden project was born after a visit to a gardening nursery with an idea to create a special tutorial for unique, fantasy leaves canes.

Advanced, sophisticated, un-usual, imaginary designs with surprising colors are the main goal of this tutorial.

**You will learn to create one cane - and get 3 options! Leaves, petals & flowers!**

In this set of tutorials, there are no traditional everyday flowers - In the "Enchanted Garden" set you will discover imaginary, marvelous canes that will spark your inspiration and give you endless new ideas for your next designs and polymer clay projects.

Vol. 34 includes 3 Canes & 3 Videos -

**The Ripples Leaf Cane** - How to create a dazzling petal/leaf cane using only 3 colors and 3 rolls in the pasta machine.

**5 Minutes Fantasy Leaf Cane** - How to create a wonderful gradient effect in 5 minutes without really creating a skinner blend.

**Twins 2 in 1 Leaf Cane** - How to create a multi purpose double sided leaf you can use separately as 2 different canes or combine together into a single multi options cane!

**What will you learn in the Enchanted Garden Tutorials?**

Save time!

Create 3D effects inside your canes;

Special focus on advanced and un-traditional petals;

Twist and shape blends into geometric designs;

Discover how to create multi- purpose millefiori canes and more!

### Customers say...

Got the entire Enchanted series plus the cd's. Love the variety of canes. Very glad I got the whole series - lots of great ideas.

# The SkyScraper Technique - Necklace, Bracelet and Brooch Tutorial

Did you ever wonder if you could use liquid polymer clay to create exquisite, irresistible designs anyone looking at it won't believe it's clay?

How can you extract the best of it and use it for more than just merely an adhesive or a transfer assistant?

Liquid polymer clay is a wonderful medium, however, it is not popular among many polymer clay artists.

Why? Well, mainly because it is hard to use for more than an adhesive or transfer assistant, without being creative.

In the new Skyscraper tutorial we will NOT follow the regular procedure of creating and curing. In this technique we will FIRST cure our materials and only then, work and design our final product.

Sounds crazy? Yes! but possible.

If you're not into traditional polymer clay work or looking for new ways to expand your artistic polymer clay passion - this class is for you!

In the new special "liquidy" edition you will learn -  
Vol. 38 - The Skyscraper Technique

In Vol. 38 Skyscraper technique we will learn how to create 2 final projects with special 3D affects, metallic and glowing optical illusions - The skyline pin and the sparkly Skyscraper tile beads.

The tile beads project can be turned into an electrifying bracelet, a statement necklace and other endless designs!

Lot's of special "tricks" in this tutorial! Use materials you never imagined that will work together! It is not silver and not silver leaf!

==> Included in Vol. 38 - a super detailed 45 minutes video with all the steps necessary to complete your projects from start to finish.

## Customers say...

Everything you do is fun - a pleasure to learn and always so beautifully professional! You have earned the a title of "Master' in this medium!" Barb, CA, U.S.A/ March 2012

# The "Flakes" Technique

## DiscChic Jewelry & Faux Stained Glass Flower

Did you ever wonder if you could use liquid polymer clay to create exquisite, irresistible designs anyone looking at it won't believe it's clay?

How can you extract the best of it and use it for more than just merely an adhesive or a transfer assistant?

Liquid polymer clay is a wonderful medium, however, it is not popular among many polymer clay artists.

Why? Well, mainly because it is hard to use for more than an adhesive or transfer assistant, without being creative.

in Vol. 39 we will create 2 stunning projects from start to finish -

@ A beautiful DiscChic necklace & an earring set using the "Flakes" technique including gloss finish and stringing.

@ A faux stained glass flower pins using the "Flakes" technique including resin finish.

Vol. 39 tutorial is an addition to my previous best selling tutorial "DiscChic jewelry" (Vol. 18), and will give you another glimpse into the wonderful possibilities available for using liquid polymer clay and DiscChic blanks.

==> Included in Vol. 39 - 2 Videos:

A 16 minutes video demonstrating the creation of the "flakes" technique and combining it into DiscChic metal blanks, curing and stringing the discs into a necklace and an earring set.

A 19 minutes video demonstrating the creation of the faux stained glass "flakes" flowers from start to finish including resin applying.

**If you can squeeze your liquid polymer clay bottle - You can create the Flakes technique!**

### Customers say...

I just bought the new tutorial by Mishly Iris and I must say that it has piqued my curiosity. There is also a great video to accompany the PDF and it's done very well for me that I know very little English.

## INKredible Polymer

create fabulous projects using alcohol inks on polymer clay!

Long before the era of digital age, with laptops, ipads and smart phones, there was only INK.

Can you imagine how the world would look like without INK?

Thousands of years ago, the human kind began using ink for writing. This was the beginning of a wonderful journey for this fascinating material, and for the last months, also for me.

My new tutorial is dedicated to a unique relationship between polymer clay and INKredible Polymer.

Although I was a complete beginner using alcohol inks, a special request by a friend introduced me into a new adventure. Studying, researching, experimenting, practicing, mixing, and learning all about Alcohol inks, head to tow, top to bottom.

In Vol. 40 - INKredible Polymer I you will learn how to create:

=> A complete class on creating **2 exquisite "Expressionist" overlapping bracelets** using alcohol inks. The special "painted" result is created by one simple trick you will use at the end of the class.

=> **The Pointy pair necklace** - Use colorful inked sheets to create a stylish a-symmetric design you can turn into a brooch, a pendant or bracelet tiles.

=> **The Sparkling towers pendants** are a fun game of bargello pattern & ink. Shiny straps turning into a glowing jewel.

=> **Charming mosaic mirror** - Play with shimmer inked squares to create a spectacular mosaic mirror . Here is a good reason to make a smiley face!

=> Included in Vol. 40 - **3 super detailed videos** with all the steps necessary to complete your projects from start to finish.

### Customers say...

All those tutorials and then a pendant to top that. I am so glad you offered such a bargain on your package. I think I have every tutorial you have offered. Love them all. Always easy to follow directions and such an array of ideas with tremendous artistic talent. Love your work Iris!!!!

## INKredible Polymer

create fabulous projects using alcohol inks on polymer clay!

Long before the era of digital age, with laptops, ipads and smart phones, there was only INK.

Can you imagine how the world would look like without INK?

Thousands of years ago, the human kind began using ink for writing. This was the beginning of a wonderful journey for this fascinating material, and for the last months, also for me.

Have you ever been excited about trying a new material with polymer clay but had no idea how to even start working with it?

You may have heard the term "Alcohol Ink" but not sure how to use it?

Are you looking for a new ideas to use Alcohol Ink on cured, un-cured and liquid polymer clay?

In Vol. 41 - INKredible Polymer II you will learn how to create:

=> **"Fabric Fantastic" silk and satin triangle bracelets** - 2 techniques for applying alcohol inks. These statement bracelets are a proof that polymer clay can mimic anything - Silk! Satin! Endless options.

=> **"Flower Power" eye-candy pendants** - festive, easy and so fun! In this project you will learn to create 2 versions of marvelous floral pendants using simple tools and materials you can use while waiting for your appointment :) You wouldn't want to stop creating these!

=> **The fashionable Spotty flat bangles** project - use embossing ink and my special trick to achieve the unusual spotty design.

==> Included in Vol. 41 - **3 super detailed videos** with all the steps necessary to complete your projects from start to finish.

### Customers say...

# Why choose PolyPediaOnline?

If you're reading this, you're either into polymer clay as a hobby, you're a curious polymer clay artist, wish to start your business in polymer clay or possibly you just heard about polymer clay, for the very first time.

Either way you're here because you're looking for new things to learn and enhance your polymer clay abilities; If you just heard about polymer clay you may want to learn more or get started.

**Whatever the reason, you're in the right place!**

## **PolyPediaOnline Vs. Workshop/Class?**

If you want to learn polymer clay, you can participate in one or more polymer clay classes, maybe if you're lucky you'll find a full course on the subject you are interested in where you live, maybe you would have to travel far, OR you can choose to learn at PolyPediaOnline, choose your own subjects, at your home, your own pace, when you want and get the best tutorials online on a specific subject you are interested in.

## **What are your benefits if you decide to buy a tutorial here at PolyPediaOnline?**

Each tutorial covers a specific subject; before you purchase a tutorial you'll know exactly what you're getting. In PolyPediaOnline each Vol is covering a wide range of projects/techniques on the same subject, this way you have all-in-one like a real Encyclopedia.

## **When do you learn the PolyPediaOnline tutorials?**

Whenever! on your own free time, at 5:00pm or 3:00am, it's your decision. Whether you're an employee by day and polymer clay artist by night, a busy mom or an eager enthusiastic. Have a quick run through or a long dedicated session, it's up to you, to your ability, to your preferences. Too tired to learn anything today? No problem, no hassle! Do it tomorrow, or the next day. You didn't quite get the last stage? Check it out again. Read it once more, try it again, no one will speed you up, no one will be "moving on to the next stage", AND you are always welcome to email me with your questions, i am online quite a lot :)

## **What about the prices?**

The price of the tutorials is so affordable, that you'll be able to purchase much more knowledge and start creating in polymer clay in no time! You'll be able to get the quickest, most convenient and rewarding return on your investment, ever!

# Frequently Asked Questions

## Where do I see all your tutorials and prices?

Enter **www.polypediaonline.com** and click “**content table**” for a full list of all tutorials. Click on the tutorial you wish and you will be forwarded to it's details, price and payment.

## How can I purchase a PolyPediaOnline tutorial?

All tutorials are sold through PayPal's service. Use your PayPal account.

choose the tutorial or tutorials you wish to buy, click on the "Add to Cart" button below the tutorial picture and follow the purchase process. You will be taken to PayPal web site, where this transaction will be completed securely. If you want to purchase several tutorials, add them all to your cart and you will be forwarded to checkout.

Once your payment comes through I receive a notification message and send you your purchased tutorial or tutorials.

## Do you guarantee privacy?

Yes. absolutely. I do not share any information about my customers with any other people or organizations.

Please be assured that if you decide to join my mailing list, your email address will only be used as a communication tool between you and me. It will never be published to any public domain and will never be shared with any third party.

## How will I get my tutorial/tutorials?

By Email - All tutorials will be sent to you by E-mail in PDF format, as soon as I receive the payment notification message from PayPal. Please verify that your email in PayPal is correct, and up to date; or specify a different email address you would like me to use, for your tutorials.

By Post (CD) - You may choose to get your tutorial by a CD wrapped in a gift box to give to a polymer clay friend or for your own personal use. Under each tutorial photo, in the products pages, you will find a drop down menu with a special price for CD version sent to your home address.

## How quickly will you send my tutorials?

Each tutorial is sent personally by me and should be with you within 48 hours of your purchase, thus, allowing for the time differences between countries. The links are not automated. I do try to check my email as frequent as possible.

## How much do you charge for shipping?

Since the tutorials are sent by email, there are no shipping fees for most of them.  
CD's and KITS sent to your home address are priced with additional shipping costs.

**Join me @  
www.polypedialonline.com**

and you're about to meet a different world  
of polymer clay knowledge!

**Thank you! :)**

Iris Mishly
